

Checklist for SFOC – RPAS – CAR 903.01(c) - Operation of a RPAS by a foreign operator or pilot – Basic and Advanced Operations

N° ATS :	N° NACIS:	Date Received :	Date
Processed by:			

Assert State Province of the persons detailed on the SPOC application form). Assert State	REQUIREMENTS									
Be-care-all Basic and Advanced Operations Year Provide capty of a valid Passiport (of the persons detailed on the SFOC application form). No. Provide capty of a valid Passiport (of the persons detailed on the SFOC application form). No. Provide a capty of the foreign RPAS pilot certificate or proof of completion of a Plight Review conducted by a Plight Reviewer authorized by the Minister, prior to any operations being conducted. No. No. Provide properations have conducted. No. Provide properations have conducted. No. Provide properations being conducted. No. Provide properations have conducted by a Plight Reviewer authorized by the Minister, prior to any operations being conducted. No. Provide properations being conducted. No. Provide properations. Provide proof of generations. Provide proof. Provide pr	A - 9	Yes		No						
2. Provide copy of a valid Passport (of the persons detailed on the SFOC application form). 3. Provide a copy of the foreign RPAS pilot certificate or proof of completion of TP15263 training from a self-declared training provider; Note 1. For Advanced Operations, all Pilots with Pilots with Pilots and Pilots and Pilots Review conducted by a Flight Reviewer authorized by the Minister, prior to any operations being conducted. 4. Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally. 5. Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.02-901.79 [Advanced operations) have been read, reviewed, and are understood. 6. As per 903.02 (d), confirm the purpose of the operation. Hire or Revard / R&D (of the RPAS itself) / Recreation? 7. As per 903.02 (f), confirm the PIPAS has not been modified from the manufacturer original design. If not or if the RPA is Home Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating initiations and sequipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (g), confirm there is an emergency oroingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (ii), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 12. As per 903.02 (ii), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 13. As per 903.02 (in), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 14. As per 903.02 (in), confirm the RPAS will be operated with regard to separation and collisions av	1.	1. Completed, properly filled out and signed.								
Provide a copy of the foreign RPAS pilot certificate or proof of completion of TP15263 training from a self-declared training provider; Note 1: For Advanced Operations, all Pilots will require Proof of completion of a Pilght Review conducted by a Pilght Review and Advanced Operations, all Pilots who have not yet completed a Pilght Review conducted by a Pilght Review and Advanced Operations, all Pilots who have not yet completed a Pilght Review conducted by a Pilght Review and an appointment with a Filght Review with their SFOC application. Note 2: For Advanced Operations, all Pilots who have not yet completed a Pilght Review conducted by a Filght Review and appointment with a Filght Review with their SFOC application. Provide proof of registration from the originating Civil Aviation Authority or confirmation the REAS is not registered internationally. Provide proof of registration from the originating Civil Aviation Authority or confirmation the REAS is not registered internationally. Provide proof of registration from the originating Civil Aviation Authority or confirmation the REAS is not registered internationally. Provide proof of registration from the originating Civil Aviation Authority or confirmation that CRBs 90.02 (d), confirm the propose of the operations, per 90.02 (d), confirm the propose of the operations, per 90.02 (d), confirm the REAS is an ot been modified from the manufacturer original design. If not or if the REA is Home-Built', provide the manufacturer and mode of the system, including three-wew drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operations, per 901.76 (d), confirm the REAS meets 901.69 (d) (d) e) as applicable. Provide proof of the REAS is an object and equipment. Provide proof of the REAS is an object and equipment that the REAS meets 901.69 (d) (d) e) as applicable. Provide proof of the REAS is an object and equipment that the REAS meets 901.69 (d) (d) (d) as applicable. Provide proof of the REAS is an objec	B – 0	General Basic and Advanced Operations	Yes	No	N/A	PAGE#				
Note 1: For Advanced Operations, all Pilots will require Proof of completion of a Flight Review conducted by a Flight Reviewer authorized by the Minister, prior to any operations being conducted. Note 2: For Advanced Operations, all Pilots who have not yet completed a Flight Review, will have to submit proof of an appointment with a Flight Reviewer with their SPOC application. Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally. Confirmation that CARS 901.01 901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are understood. As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / RBD (of the RPAS itself) / Recreation? As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / RBD (of the RPAS itself) / Recreation? As per 903.02 (d), confirm the PRAS has not been modified from the manufacturer original design. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-) as applicable. As per 903.02 (d), confirm the six an emergency contingency plan is in place, an emergency response plan, etc. As per 903.02 (n), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. As per 903.02 (n), confirm there is an emergency procedures in place as per 901.23. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. As per 903.02 (m), confirm the RPAS will be operated with regard to separation and collisi	2.	Provide copy of a valid Passport (of the persons detailed on the SFOC application form).								
prior to any operations being conducted. Note 2: For Advanced Operations, all Pilots who have not yet completed a Flight Review, will have to submit proof of an appointment with a Flight Reviewer with their SFOC application. 4. Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally. 5. Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are understood. 6. As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation? 7. As per 903.02 (f), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is "Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1); confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm thes lite Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (g), confirm these its survey/Safety Plan process is in place, an emergency response plan, etc. 11. As per 903.02 (g), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 12. As per 903.02 (g), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. As per 903.02 (g), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 14. As per 903.02 (g), confirm the RPAS will be operated in weather conditions that are in accordance to 901.31, 901.17, and 901.18. 15. As per 903.02 (g), confirm the RPAS will be operated in weather conditions avoidence as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (g), provide a description of air trafic control services coor	3.	Provide a copy of the foreign RPAS pilot certificate or proof of completion of TP15263 training from a self-declared training provider;								
Note 2: For Advanced Operations, all Pilots who have not yet completed a Flight Review, will have to submit proof of an appointment with a Flight Reviewer with their SFOC application. 4. Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally. 5. Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are understood. 6. As per 903.02 (i), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS Itself) / Recreation? 7. As per 903.02 (i), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is "Home-Built", provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (i), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (j), confirm the RPAS will be operated with regard to separation and collision avoidance to 901.34. 14. As per 903.02 (i), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 15. As per 903.02 (i), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 16. As per 903.02 (i), confirm the RPAS will be operated with regard to separation and collision										
with their SFOC application. 4. Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally. 5. Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are understood. 6. As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation? 7. As per 903.02 (f), confirm the PAS has not been modified from the manufacturer original degree. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (h), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 12. As per 903.02 (h), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 13. As per 903.02 (h), confirm the RPAS will be operated in weather conditions that are in accordance as per 901.15, 901.16, 901.17, and 901.18. 14. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 15. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 16. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.17, and 901.18. 16. As per 903.02 (n), confirm the RPAS will be operated in weather conditions that are in accordance										
S. Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are understood. 6. As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation? 7. As per 903.02 (f), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (3) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, as specified in 901.23. 11. As per 903.02 (i) and (n), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (i), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (i), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (ii), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (ii), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (ii), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16. As per 903.02 (ii), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16. As per 903.02 (ii), provide a description of air trafic control services coordination, if appl										
understood. 6. As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation? 7. As per 903.02 (d), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (g), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (in), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 13. AS per 903.02 (k), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (in), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (in), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 17. As per 903.02 (in), confirm the RPAS will be operated with 901.14 and 901.15.	4.	Provide proof of registration from the originating Civil Aviation Authority or confirmation the RPAS is not registered internationally.								
understood. A sper 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation? A sper 903.02 (d), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. As per 903.02 (l) and (n), please confirm there are normal and emergency procedures in place as per 901.23. As per 903.02 (l), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. As per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). As per 903.02 (l), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. As per 903.02 (l), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. As per 903.02 (o), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. If in uncontrolled airspace (Class G), in accordance with 901.14 and 901.15. Overall Inspector Comments:	5.	Confirmation that CARs 901.01-901.49 (Basic and Advanced Operations), 901.62-901.79 (Advanced operations) have been read, reviewed, and are								
As per 903.02 (f), confirm the RPAS has not been modified from the manufacturer original design. If not or if the RPA is 'Home-Built', provide the manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (n), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 14. As per 903.02 (l), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (n), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (on, confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 17. In uncontrolled airspace (Class G), in accordance with 901.14 and 901.15.										
manufacturer and model of the system, including three-view drawings or photographs of the aircraft and a complete description of the aircraft, including performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (in), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 14. As per 903.02 (i), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (m), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (o), provide a description of air traffic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16. In uncontrolled airspace (Class G), in accordance with 901.14 and 901.15. Overall Inspector Comments:	6.	As per 903.02 (d), confirm the purpose of the operation. Hire or Reward / R&D (of the RPAS itself) / Recreation?								
performance, operating limitations and equipment. 8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (n), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 14. As per 903.02 (l), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (m), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (o), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16. If in uncontrolled airspace (Class G), in accordance with 901.14 and 901.15. 17. Overall Inspector Comments:	7.									
8. For Advanced Operations, per 901.76 (1), confirm that the RPAS meets 901.69 (1) (a-c) as applicable. 9. As per 903.02 (g), confirm the Site Survey/Safety Plan process is in place, as specified in 901.27. 10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (n), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. AS per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 14. As per 903.02 (l), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (m), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (o), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16. If in uncontrolled airspace (Class G), in accordance with 901.14 and 901.15. 17. Overall Inspector Comments:										
10. As per 903.02 (h), confirm there is an emergency contingency plan is in place, an emergency response plan, etc. 11. As per 903.02 (i) and (n), please confirm there are normal and emergency procedures in place as per 901.23. 12. As per 903.02 (j), provide names, certificates, licenses, permits and qualifications of additional crew members, if applicable. 13. As per 903.02 (k), confirm RPAS maintenance and serviceability will be as per 901.29 and 901.48(1)(b). 14. As per 903.02 (l), confirm the RPAS will be operated in weather conditions that are in accordance to 901.34. 15. As per 903.02 (m), confirm the RPAS will be operated with regard to separation and collision avoidance as per 901.15, 901.16, 901.17, and 901.18. 16. As per 903.02 (o), provide a description of air trafic control services coordination, if applicable (Class A, B, C, D, E and F) and in accordance to 901.71-901.73. 16.
